marine management requires approaches which bring together the best research from the natural and social sciences it requires stakeholders to be well informed by science and to work across administrative and geographical boundaries a feature especially important in the inter connected marine environment marine management must ensure that the natural structure and functioning of ecosystems is maintained to provide ecosystem services once those marine ecosystem services have been created they deliver societal goods as long as society inputs its skills time money and energy to gather those benefits however if societal goods and benefits are to be limitless society requires appropriate administrative legal and management mechanisms to ensure that the use of such benefits do not impact on environmental quality but instead support its sustainable use

contributors explore the complementarity of women and men that women and men are equal and different as underpinned by catholic theology and expressed in philosophy theology psychology and art

the aim of the book is to present original and though provoking essays in human paleontology and prehistory which are at the forefront of human evolutionary research in honor of professor yoel rak a leading scholar in paleoanthropology the volume presents a collection of original papers contributed by many of yoel s friends and colleagues from all over the globe contributions from experts around the globe fall roughly into three broad categories reflections on some of the broad theoretical questions of evolution and especially about human evolution the early hominins with special emphasis on australopithecus afarensis and paranthropus and the neanderthals that contentious group of our closest extinct relatives within and across these categories nearly every paper addresses combinations of methodological analytical and theoretical questions that are pertinent to the whole human evolutionary time span this book will appeal most to scholars and advanced students in paleoanthropology human paleontology and prehistoric archaeology

this collection of essays by biblical scholars is the first book length treatment of the 2014 film noah directed by darren aronofsky the film has proved to be of great interest to scholars working on the interface between the bible and popular culture not only because it was heralded as the first of a new generation of biblical blockbusters but also because of its bold provocative and yet unusually nuanced approach to the interpretation and use of the noah tradition in both its biblical and extra biblical forms the book s chapters written by both well established and up and coming scholars engage with and analyze a broad range of issues raised by the film including its employment and interpretation of the ancient noah traditions its engagement with contemporary environmental themes and representation of non human animals its place within the history of cinematic depictions of the flood status as an epic and associated relationship to spectacle the theological implications of its representation of a hidden and silent creator and responses to perceived revelation the controversies surrounding its reception among religious audiences especially in the muslim world and the nature and implications of its convoluted racial and gender politics noah as antihero will be of considerable interest to scholars conducting research in the areas of religion and film contemporary hermeneutics reception history religion and popular culture feminist criticism and ecological ethics

the yearbook of international organizations provides the most extensive coverage of non profit international organizations currently available detailed profiles of international non governmental and intergovernmental organizations igo collected and documented by the union of international associations can be found here in addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the yearbook include networks between associations biographies of key people involved and extensive statistical data volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to volumes 1 through 3

in psychoanalysis as a subversive phenomenon social change virtue ethics and analytic theory amber m trotter examines the radical sociopolitical roots of psychoanalysis and contends that psychoanalytic practices can and should be used to promote social change today trotter illustrates how analytic theory and practice could function subversively in contemporary american culture this book is recommended for students and scholars of psychology sociology political science cultural studies and philosophy

this volume provides the first book length study of the controversial topic of verb second and related properties in a range of medieval romance varieties it presents an examination and analysis of both qualitative and quantitative data from old french occitan sicilian venetian spanish and sardinian in order to assess whether these were indeed verb second languages sam wolfe argues that v to c movement is a point of continuity across all the medieval varieties unlike in the modern romance languages but that there are rich patterns of synchronic and diachronic variation in the medieval period that have not previously been observed and investigated these include differences in the syntax pragmatics mapping the locus of verb movement the behaviour of clitic pronouns the syntax of subject positions matrix embedded asymmetries and the null argument properties of the languages in question the book outlines a detailed formal cartographic analysis of both the attested synchronic patterns and the diachronic evolution of romance clausal structure the findings have widespread implications for the understanding of both the key typological property of verb second and the development of latin into the modern romance languages
